

PRODUCT PORTFOLIO

EXPRESS Collection 2025

novodecor belongs to the European company **SURFORMA** SA which has more than 65 years of innovation and leadership in the production and distribution of **Laminates** and **Compacts**.

SURFORMA was created in 1959 and is the origin of the Sonae Group, a Portuguese multinational that is present in more than 60 countries and manages a diversified portfolio of businesses in various industries. Currently EFANOR group turnover exceed €8 billion.

SURFORMA history is as much about fidelity to the past as it is about looking into the future with the constant development of new approaches and techniques, always focusing on innovation and sustainability.

At SURFORMA, we continually strive to create innovative products that support sustainable design and contribute to a healthier environment. We are committed to developing an eco-friendly and conscientious work at all levels – economic, ecological and social.

Certifications, Safety & Well Being

SURFORMA has an integrated management system and thus fulfils its commitment to continuous improvement and ensures knowledge of and compliance with clearly defined requirements in all areas.

Scope of the integrated management system – ISO standards

ISO 9001: Quality management

ISO 14001: Environmental management

ISO 45001: Work safety

Our approach to product transparency and eco-labelling: EPD, Greenguard, NSF

SURFORMA stands for full product transparency and a verifiable, factual representation of environmental properties.

The externally verified EPD (Environmental ProductDeclaration) contains the results of a cradle-to-gate life cycle assessment. This data enables planners, designers and architects to make informed product comparisons from an environmental perspective. Our EPDs for HPL and Compact are verified by the Institut Bauen und Umwelt e.V. (IBU).

Certifications, Safety & Well Being

When product bears GREENGUARD certification, it means that it's been tested for more than 10,000 different chemicals and only the most harmless ones are allowed.

It hasn't just met indoor air quality limits but is also meant for indoor spaces.

By choosing products with GREENGUARD Certification, you're keeping your indoor environment healthier for you, your family and all your workers.

HPL post forming grade has GREENGUARD Certification.

The **NSF** mark assures consumers, retailers and regulators, that certified products have been rigorously tested to comply with all standard requirements. SURFORMA® laminates were tested under the stringent NSF/AISI 35 Standard and their certification ensures the food security.

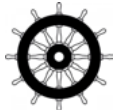

Scope of the integrated product and management system for the safety and security of shipping: IMO MED

The mandatory safety equipment that must be carried on board each ship is defined at international level by the International Maritime Organization (IMO).

Through the Marine Equipment Directive 2014/90/EU, the European Union has acted to harmonize testing standards and certification for marine equipment in the EU. This is carried out by specialized entities, the Notified Bodies.

SURFORMA have certification **Module B for HPL post forming and fire-retardant grades and Module D for Product Quality Assurance.**

Product Portfolio

High Pressure Lamintes - Thin HPL and Compact

RESISTANT TO **DURABLE**
abrasion & scratches &
stains & heat & impacts
Easy **STABLE** **TRENDY**
to Install **ANTIBACTERIAL**
Easy to Maintain
ANTIVIRAL **ECO-FRIENDLY** **FOOD SAFE**

SURFORMA® **HPL** is a high-pressure laminate suitable for indoor use, where design, quality and resistance are key to your project’s success. Particularly resistant, durable and hygienic, this product is suitable for high impact and wear situations, both horizontal and vertical applications, in public, commercial and residential areas.

SURFORMA® **CPL** is a thin, resistant, and flexible laminate representing an ideal surfacing solution for doors, profiles, wall claddings and furniture. Available in Flex grade in roll for wrapping profiles and doors and CPL postforming variant for doors, claddings and furniture.

SURFORMA® **COMPACT** solutions can withstand high impacts, thus ensuring reliability and safety. Suitable to be used in indoor environments with demanding conditions, such as high wear and tear or humidity levels. Compacts are the perfect ally in difficult environments due to their structural stability and high resistance.

SURFORMA® laminates meet the most stringent requirements of European EN438 and American NEMA LD-3.

0% Heavy metals & carcinogens & pentachlorophenol

VOC very low volatile organic compounds emissions

HPL Post-forming

Crafted for affordable luxury and practical performance

Choose Surforma® HPL with confidence, knowing it is engineered to last and third-party certified to help maintain a safe, healthy indoor environment.

Design options are available to fit traditional and contemporary aesthetics for countertops, cabinetry, walls, and anywhere high performance meets high design.

Stands up to everyday use, high traffic, and the maintenance and hygiene demands of sensitive environments, like hospitals.

Kitchen is now the heart of your home. Thanks to the high performance and durability of the HPL collection, your kitchen will be ready for whatever life throws at it.

CPL

Thin, flexible, durable

Suitable for different applications such as doors, frames, profiles and panel balancing.

SILK anti-fingerprint HPL

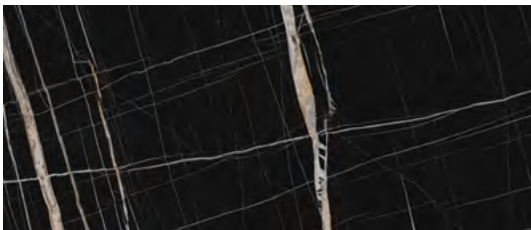

An elegant and warm to touch laminate with unique features.

The surface has thermal healing properties for superficial micro scratches, low light reflectivity thanks to its extreme opacity and matt finish as well as anti-fingerprint feature. SILK offers even more, an innovative free phenol core which stand out this new product.

The SILK is suitable for both **horizontal** and **vertical** applications. It can be used in a wide range of interior designs, for home, hospitality, healthcare and commercial applications: e.g. kitchens and bathrooms, work surfaces, furniture, doors, wall claddings and interior fittings.

COMPACT LABgrade

The best solutions for safe and durable laboratory, research and educational environments.

Compact LABgrade is extensively used in a wide variety of lab environments worldwide, including chemical, physical, analytical and microbiological laboratories.

Compact LABgrade manufactured with unique Electron Beam Curing (EBC) technology, is easy to clean and shows a high resistance to a large number of aggressive chemicals and cleaning agents meeting the most stringent requirements of SEFA 3-2010. It also has inherent antibacterial properties.

Compact LABgrade provide an ideal choice in environments where hygiene, avoidance of contamination, sustainability, ergonomics and safety are of importance.

For applications other than lab worktops, we offer a complementary range of Standard Compact, Fire Retardant and Antiviral.

	LABGRADE	ANTIVIRAL	STANDARD	FIRE RETARDANT

COMPACT

The perfect ally given its structural properties and substantial resistance.

SURFORMA®'s Compacts designed to respond to demanding environments stand out by their appearance, quality, resistance and durability, thus becoming reliable and safe products.

Compacts can be applied in indoor surfaces, horizontally or vertically, in commercial, institutional & hospitality settings. Is also a perfect solution for outdoor furniture.

Compact has high strength, impact, water and humidity resistance and can be routed to create different shapes and forms.

Compacts are compliant with the EN438 and LD-3 standards, meeting all the stringhts requirements in terms of surface resistance and mechanical properties.

The Compact surface is antibacterial, tested under the standard ISO 22196:2001 and validated accordingly to Japanese regulation JIS Z 2801.

The ideal solution for wet spaces such as Cubicles, Washroom and Lockers, public bathrooms and spas, public places with great use like schools and hospitals, for furniture tops and much more.

PLAIN COLORS

Neutral, light and sober tones begin share the role with more vibrant, expressive and saturated colors.
Lighter tones that evoke water and air with their lightness and clarity, symbols of stillness, create spaces with a peaceful and fresh atmosphere.

Powerful tones, which explore desire, passion and empowerment, for new and bold approaches.

Colors promote creativity and diversity in interior design.

STONE & MARBLE & METALLIC & TEXTILE

Minerals are materials of many impressions, a union of power and subtleness. This combination speaks to the smart elegance. Metallics generate a refreshing and modern effect on decoration. The elegance of silver and the delicacy of rose gold. Textiles with rich tones and textures, promote cozy and pleasant feelings creating a light, organic, somewhat bohemian atmosphere.

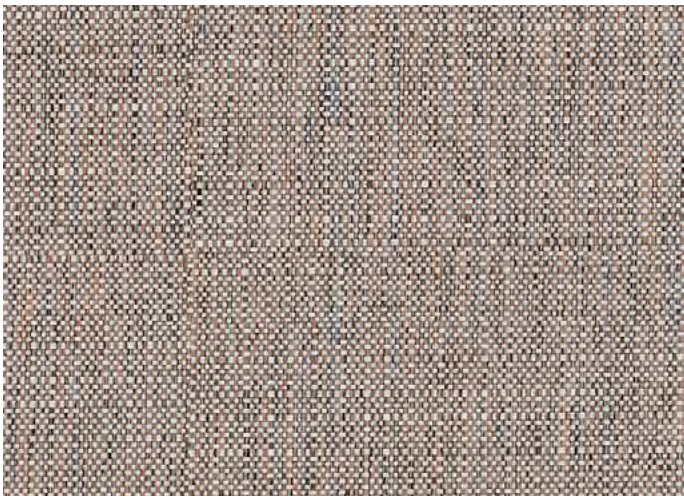

A range full of flavor and color for vibe projects.
